Required Review Materials

Please link two (2) audio links and one (1) video of a live performance of the proposed showcase format. Please note that the live video is the primary format that our jurors will use to create a score of artistic quality. The video should be current enough that it reflects how you plan to appear while showcasing (both band size and creative content) at the Folk Alliance International conference. The audio and video production quality should be at a level that reflects your professionalism.

The video submission does not need to be unique for this application. It can be as short as 1 song. A past live streamed performance, tiny desk concert submission, showcase video, or other high-quality live video performance will be perfect.

These files can be on the artist website, YouTube, Soundcloud or any other live streaming page.

Only direct links to songs or videos will be used by the jury. Please COPY & PASTE the URL into the fields below.

The jury WILL NOT review downloads or use Dropbox or Google Drive files.

Please note that jurors may not listen to all music submissions.
